Its good to get out of your comfort zone

If I'd told my boys they were going to be in a theatre project, they wouldn't have come along. It's because we just turned up for an adventure as a family that they went along with it so well, and got parts too!"

My children really came out of themselves and felt really involved. We would love to do it again please, as it was great family time

The whole week was brilliant.

It was wonderful to do something so fun and creative!
